PROFESSIONAL SUMMARY

Java Full Stack Developer with 1+ year of hands-on experience in Spring Boot, Spring Security, Hibernate, JPA, and RESTful API development. Built production-grade applications including a digital banking system with JWT-based authentication and a full-stack sales management platform, demonstrating expertise in backend development, database integration, MVC architecture, and secure transaction processing. Seeking an SDE-1 or Java Full Stack Developer role to build scalable, high-performance enterprise applications.

PROFESSIONAL EXPERIENCE

Software Development Intern | *KodNest Technologies, Bengaluru* Aug 2025 – Present

- Completed intensive Full Stack Java Development training, building 3+ industry-oriented applications following MVC architecture.
- Developed and deployed RESTful APIs using Spring Boot and Spring Security, implementing JWT-based authentication across multiple modules.
- Integrated Hibernate/JPA with MySQL databases, optimizing query performance and ensuring reliable data persistence.
- Collaborated on code reviews and version control workflows using Git and GitHub, maintaining clean commit histories across projects.

Java Intern | *Solitaire Infosystem Pvt. Ltd., Mohali* Jul 2023 – Aug 2023

- Completed 45-day internship focused on Core Java, OOP principles, and practical application development.
- Built Java-based console and GUI applications, strengthening understanding of Collections Framework, Exception Handling, and JDBC.

PROJECTS

Neo Ledger – Digital Banking System github.com/obaid-majeed/neo-ledger-digital-banking-system

Java | Spring Boot | Spring Security | JWT | Hibernate | JPA | MySQL | HTML | CSS | JS | Bootstrap

- Architected a full-stack digital banking application simulating core banking operations: secure registration, OTP-based authentication, account management, balance inquiry, deposits, withdrawals, and fund transfers across 5+ transaction types.
- Implemented role-based access control (RBAC) using Spring Security and JWT, ensuring zero unauthorized access to sensitive financial endpoints.
- Designed 10+ RESTful APIs enabling seamless frontend–backend communication with proper HTTP status codes and exception handling.
- Integrated MySQL via Hibernate/JPA with normalized schema design, supporting reliable data persistence and transaction integrity.

Sales Savvy – Full Stack Sales & Customer Management System github.com/obaid-majeed/sales-savvy

Java | Spring Boot | Spring MVC | Hibernate | JPA | MySQL | HTML | CSS | JS | Bootstrap

- Built a full-stack sales management platform with 6 functional modules: product management, inventory tracking, cart, payment processing, order management, and admin controls.
- Implemented secure authentication with session management and CRUD operations across all modules, reducing manual data entry effort significantly.
- Designed responsive UI using Bootstrap with optimized backend services, supporting seamless business workflows and real-time inventory updates.
- Applied MVC architecture with clear separation of concerns, improving code maintainability and enabling independent module testing.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, HTML5, CSS3

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, JDBC, REST APIs, JWT

Database: MySQL, Oracle

Tools & Platforms: Git, GitHub, Maven, Postman, Eclipse, STS, VS Code, MySQL Workbench

EDUCATION

Bachelor of Technology (CSE)

May 2021 – May 2025

Baba Farid College of Engineering and Technology, Bathinda, Punjab | CGPA: 6.4

10+2 (PCB)

Jan 2019 – Dec 2019

Army Good Will School, Kupwara, J&K | CGPA: 7.0

10th

Jan 2017 – Dec 2017

Army Good Will School, Kupwara, J&K | CGPA: 7.6

CERTIFICATIONS

- Full Stack Java Development – KodNest Technologies (2026)
- Java Internship Completion – Solitaire Infosystem Pvt. Ltd. (2023)
- Fundamentals of Python – Intel EdGate Technologies (Sep 2022)
- Employability Skills (LifeSkills) – Rubicon (May 2023)
